I think that we will have to do the second - as the electronic file would be very large otherwise and perhaps not of high quality. When Cheryl gets in, she is going to call me to discuss how it can get done.

I think we need the report to be a complete package. One pdf or at least all the electronic files of attachments will have to be named as attachment X etc.

Cheryl has most of the appendices as electronic pdfs. Just the report and perhaps photolog need to be scanned. Cheryl could print the photolog directly to pdf.

It looks like Ryan signed it yesterday, so it is final. It is about 3" thick and will need to be scanned and distributed. I may need some administrative support since Tracy is out today.

Is it ready to go today? I need to let WDNR know and also have ORC alert the AGC.
